

VHSHL Boys League Game Clock Protocol

Clock:

All games will be three (3) twenty (20) minute stop time periods. (VHSHL)

If, after the **midpoint of the second period** and mutual agreement of the two coaches prior to the start of the game, **an eight (8) goal difference** in score exists, the game clock shall go to running time. If the goal spread becomes **seven (7) or less, the clock will revert to stop time on one (1) occasion**. Subsequent eight goal spreads will require running time for the duration of the game. (VHSHL)

After a **spread of five (5) goals** between teams at any time in the **third period** the clock will go straight time. (VHSHL 2002)

If the goal spread becomes **four (4) or less, the clock will revert to stop time on one (1) occasion**. Subsequent five goal spreads will require running time for the duration of the game. (VHSHL 2002)
